INDEPENDENCE IN THE HOME, AND PARTICULARLY THE BATHROOM, IS NEVER AN EASY SUBJECT TO TACKLE.

From the stigma of 'institutional' looking support aids to the complexities and inconsistencies of the assessment and funding process, it can often be a long and challenging journey.

At the heart of the issue, however, remains a vitally important question; how can we support people to live independently without compromising their dignity?

Whilst there is no magic wand to funding or red tape, with greater education, enhanced visibility of key solutions and a more collaborative approach, I believe it is possible to close the gaps between identifying a need and installing those solutions which can literally change lives.

The Geberit AquaClean Mera Care in every aspect, and at all levels of product development, we have focused on the needs of the end users – and the new five-year warranty underscores our confidence in what is a new generation product for the shower toilet market. Thanks to its outstanding functionality, this product is not only beautiful to look at, it also makes life easier and more comfortable for the user.

Simon Thomas

National AquaClean Care Sales Director

THE GEBERIT AQUACLEAN MERA CARE DESIGNED TO MAKE A DIFFERENCE

The Geberit AquaClean Mera Care shower toilet is designed to put you in control. Its innovative features include a hybrid hot water system with continuous flow heater and a water storage heater that guarantees warm water even if the wash is run one after another. The 50 second wash cycle draws from the warmed tank of water and the continuous flow heater on the first use, this can be followed by another minute of wash with warm water directly from the continuous flow heater, whilst the water storage tank refills. Thanks to this technology you'll always have a warm water wash and the confidence to feel clean. Warm air drying will leave you clean and fresh, along with a

single activation control panel for ease of use. Everything is designed with your comfort and convenience in mind.

Our development team have been working on the Geberit AquaClean Mera Care design for independent living for several years, utilising the Geberit Group's experience and expertise. We are constantly evolving and enhancing every aspect of our care products and have installed a number of these units across the UK during the development phase to test their installation and use, and to seek feedback, so we were able to make any enhancements required.

SWISS PRECISION AND INNOVATION

We have spent 40 years investing in the development of shower toilet technology fine-tuning our products to absolute perfection. The result? The geberit aquaclean.

Over the last 40 years at the Geberit headquarters in Rapperswil-Jona, Switzerland, we have invested a wealth of experience and expertise in development work for the shower toilet technology, with each new shower toilet our technology develops and we are able to offer something else new and innovative.

Armin Gierer, Head of the Geberit AquaClean product range, expresses the philosophy behind our pioneering work: 'When it comes to the development of our Geberit AquaClean shower toilets, we do not compromise on comfort and well-being. The calm, aesthetic design is based on a ground-breaking product concept and offers revolutionary, innovative technologies. Functionality, cleanliness and sustainability which set standards.'

"The revolutionary patented features are the result of a process of constantly perfecting that technology so it provides sophisticated Swiss precision in all of its functions, along with finely-tuned performance, comfort and convenience."

ARMIN GIERER
HEAD OF THE GEBERIT
AQUACLEAN PRODUCT RANGE

THE ASSESSMENT

At Geberit we take pride, time and effort in ensuring all our clients have the opportunity to view a fully functioning demonstration toilet in their own home prior to any adaptations or installation work.

Giving the client the opportunity to interact with a shower toilet, to hear the different sounds, feel the warmth from the dryer and to engage with the various control options is a powerful and rewarding experience. Helping to remove anxieties, concerns or even worries about the kind of equipment you as an Occupational Therapist, Technical Office, Surveyor or Grants Officer may be wishing to provide.

A home assessment also gives opportunities for discussion in the bathroom regarding future proofing, seat heights, compatible equipment and activity analysis. At every home assessment a Geberit CARE Team member completes their assessment notes, this is a complete guide/ breakdown of what work is needed in the bathroom and instructions to help you better process your adaptation request.

All our CARE team members carry a fully working demonstration toilet in their vehicles. All our vehicles are equipped with hoists to ensure each assessment is completed safely and our team members can complete their visit with confidence.

THE BENEFITS OF A PRODUCT ASSESSMENT

- Face to face product demonstration
- Hands on opportunity for the client
- Familiarisation of controls
- Client confidence building
- Offers OT the chance to observe the client using all the controls & functions (Activity Analysis)
- Provides an opportunity for clients to ask questions about the product
- Alleviate any concerns or anxieties

EMPOWERED INDEPENDENCE FOR YOU

The Geberit AquaClean Mera Care shower toilet has been specifically designed to put you in control, giving you confidence and independence in the bathroom.

Smart, stylish and easy to use, its advanced technology enables you to have a greater sense of independence in the bathroom.

Geberit innovation brings together a range of innovative features in the AquaClean Mera Care, cleverly designed and adapted to take care of your individual needs and to put you in control. You'll feel cleaner and fresher with a comfortable, convenient and hygienic bathroom experience.

CHILDREN AND YOUNG ADULTS

Shower toilets are not just for adults. Over the decades, the AquaClean CARE shower toilet has been proven to work effectively with children and young adults. It helps promote personal independence, eliminates embarrassing situations, and boosts morale and confidence.

The AquaClean CARE shower toilet is also highly compatible with leading brands of pediatric shower chairs, including the Jiraffe Rifton HTS, RAZ ATP, R82 Flamingo and Heron, as well as the Prism Medical T90 and T80 Auto Paediatric ranges.

Having the ability to adjust the power of the wash benefits users who may be nervous or unsettled by changes in their habits. For example, a young autistic person may initially find the wash an unusual experience. The ability to adjust the power of the wash allows them to start with a gentle, less unsettling wash. Over time, as the sensation of washing with water becomes more familiar, they can increase the power of the wash to achieve a more effective clean. The same applies to the dryer function. Being able to turn the dryer on or off, as well as adjust the speed and temperature, gives those who might initially feel nervous or unsettled the control to tailor the experience to their comfort level. This step-by-step approach helps them gradually incorporate shower toileting into their daily routine.

The AquaClean CARE shower toilet offers remarkable flexibility, adapting seamlessly to the evolving needs of children and young adults. This adaptability ensures that as they grow, their personal care remains consistent and tailored to their requirements. Integrating modern design and technology, the AquaClean CARE allows users to control the toilet via the Geberit Home app on their mobile phones. For those with severe disabilities, the integration of eye gaze technology on iPads and tablets provides an empowering solution, enabling independent control over wash and dry functions, thereby enhancing dignity and autonomy in personal care.

YOUR PERSONAL WELL-BEING PROGRAMME

EVERYTHING PERFECTLY TAILORED AND **CUSTOMISED TO YOUR REQUIREMENTS**

Every person has unique requirements, which is why the Geberit AquaClean Mera Care can be adjusted, from the position of the spray arm to the water temperature and intensity, right through to the dryer setting. Geberit AquaClean is an ideal solution for most living situations.

TOUCH-FREE OPERATION
With the touchless remote, using the Geberit AquaClean Mera Care can be completely hands-free. A sensor detects movement and automatically starts the washing and drying sequence. All functions will only operate when you are seated. It will even flush the shower toilet automatically before the wash cycle – easy, private and convenient.

PERSONALISED COMFORT
With the enhanced memory function on the remote control, you can select your own programme and store it, so that it can be used again and again. For added convenience, once saved the settings can be activated by the opto-remote or control panel. The remote also includes a button for flushing.

TOTAL CONTROL
The wash and dry cycle can be easily activated by either the push-button control panel located to the side of the toilet, or the remote control, providing you with maximum control.

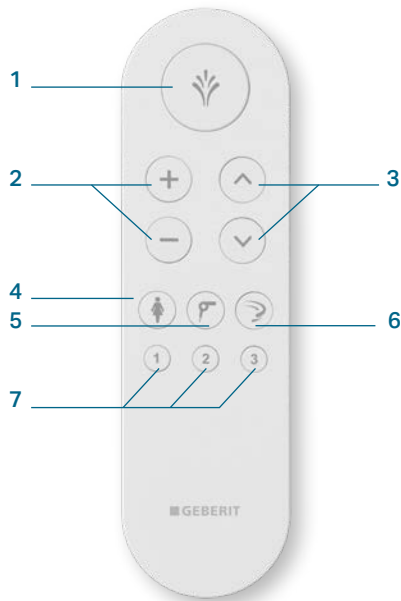

ADJUSTABLE HEIGHT
Geberit AquaClean Mera Care (with a height range of 440-560mm) is flexible to accommodate specific seat height requirements at installation, thanks to the in-built height adjustable stainless steel frame.

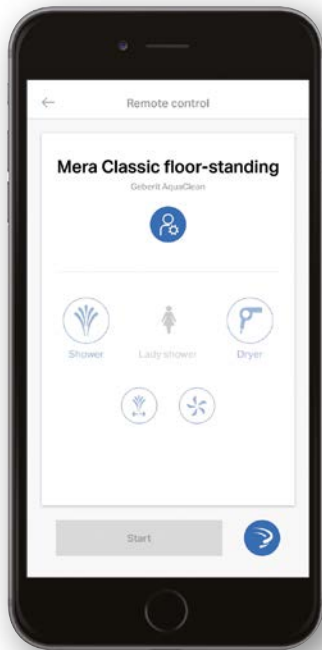

ASSESSMENTS
As a service to you, our team of Product Specialists will work together with you and your Occupational Therapist to assess your requirements, free of charge and in the privacy of your own home. This is so you can be sure that the product is just right for you.

TOTAL CONTROL WITH NO CALL OUTS

THERE'S NO NEED FOR AN ENGINEER, YOU CAN CONTROL ALL SETTINGS WITH **THE REMOTE CONTROL OR THE AQUACLEAN HOME APP**

- REMOTE CONTROL**
1. Start/stop shower
 2. Spray intensity
 3. Spray arm position/ Oscillating spray
 4. Lady shower
 5. Dryer
 6. Flush actuation
 7. User profiles (1-3)
- Spray functionality with comfort settings that can each be individually set to five levels.
 - Three user profiles can be saved individually.
 - Option to make individual settings with the display on the rear side.

- AQUACLEAN APP**
- With our new App, you can personalise your comfort levels to suit your individual preferences. It's compatible with the Geberit AquaClean Mera Care shower toilet and also includes access to helpful short videos to help you improve your AquaClean experience. It couldn't be easier or more suited to your needs.
- Applicable on other AquaClean models in hospitality settings
 - Works with IOS, Android and tablets
 - Connects with Bluetooth
 - Personalised settings
 - Care and maintenance section, including warranty details and technical support and a remote support function
 - Useful videos for the user

See page 22 for the full list of features and benefits

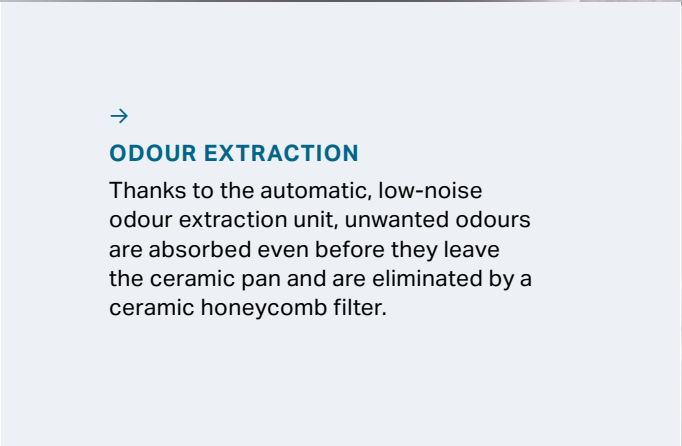

DESIGNED FOR EFFORTLESS HYGIENE

THE GEBERIT AQUACLEAN MERA CARE IS ENHANCED WITH MULTIPLE FEATURES WHICH **AID EASY CLEANING AND MINIMAL MAINTENANCE**

←
KERATECT GLAZE

The ceramic pan is covered in a special glaze called KeraTect® which creates a virtually non-porous surface that is very easy to clean. Not only does this make the surface more hygienic but also more durable and scratch proof.

→
ODOUR EXTRACTION

Thanks to the automatic, low-noise odour extraction unit, unwanted odours are absorbed even before they leave the ceramic pan and are eliminated by a ceramic honeycomb filter.

←
RIMFREE CERAMIC PAN

The Rimfree® ceramic pan ensures perfect hygiene. Thanks to its optimised water guide, the entire inner ceramic surface is completely rinsed, for much easier cleaning. Also since the pan is rimless, there are no hidden areas where deposits can build up.

SUITABLE ACCESSORIES

QUALITY PRODUCTS FOR LONG-TERM SUPPORT

To ensure an all round comfortable experience Geberit AquaClean Mera Care can be used in conjunction with sani commode chairs and wall mounted grab rails, ensuring a feeling of well-being and offering added comfort and convenience.

↑
**SANI COMMODE CHAIRS
FOR ADDED ASSISTANCE**

A range of sani commode chairs are available and compatible with the Geberit AquaClean Mera Care.

↑
**WALL MOUNTED GRAB RAILS
FOR ADDITIONAL SUPPORT**

Grab rails provide extra support when seating and raising.

FREQUENTLY ASKED QUESTIONS

WHAT ARE THE BENEFITS?

For a more thorough and soothing clean, the gentle spray of warm water is kinder to your skin than cleaning with paper. You feel clean, rejuvenated and experience a higher level of satisfaction.

HOW DOES IT WORK?

Take a seat as a spray of warm water activates and washes you at an intensity level to suit you. As soon as you sit down, the odour extraction will be activated and finally you will be dried gently with a flow of warm air.

IS IT EASY TO USE?

Yes. Geberit AquaClean Mera Care has been designed with you in mind. It offers a variety of control options that allow you to choose whichever functions are most convenient. Even hands-free operation is included without compromising on individuality.

IS IT SUITABLE FOR PEOPLE WITH HEALTH PROBLEMS?

Yes, it is ideal for people who suffer from skin irritations in sensitive areas. This is because it cleans gently and thoroughly with fresh water. Many users find that their symptoms are considerably alleviated or even avoided.

HOW SUSTAINABLE IS IT?

Geberit AquaClean Mera Care makes the need for toilet paper obsolete. It only uses a small amount of well-directed water each time you activate the spray function. Paired with low energy consumption we have developed a feature packed shower toilet that is as sustainable as a conventional WC.

CAN IT BE USED IN CASE OF A POWER CUT?

Yes it can. There is a mechanical flush button included, so you can continue using the Geberit AquaClean Mera Care as a standard toilet, should you experience a power cut.

HOW LONG IS A GEBERIT AQUACLEAN MERA CARE SHOWER TOILET LIKELY TO LAST?

In our experience the AquaClean Mera Care is designed to withstand many years of use. As with conventional toilets the lifespan of the WC will depend on how well it is maintained.

IS A LID AVAILABLE?

The Geberit AquaClean Mera lid can be added quickly and easily. The article number to order is 243.211.11.1

CAN IT BE CLEANED LIKE A CONVENTIONAL TOILET?

Geberit AquaClean Mera Care features a unique dirt-repellent finish for easy care and the highest standard of hygiene. Regular cleaning with a soft damp cloth and the Geberit AquaClean Mera Care cleaning agent, is recommended to keep the shower toilet in good condition.

WHO CAN INSTALL THE PRODUCT?

We were keen to develop a product that's innovative and easy to install. As a result, any qualified installer of your choice will be able to carry out the job.

WHERE CAN I PURCHASE OPTIONAL EXTRAS?

If you require an optional extra such as grab rails or a toilet lid, these must be purchased separately contact us on freephone 01926 516 800.

WHO ARE GEBERIT?

Geberit is the European market leader in sanitary technology. Since its founding in 1874, the company has been a pioneer in the industry and continuously thrives on its Swiss precision and engineering. Geberit is recognised for producing state of the art products renowned for their endurance and cutting edge design.

The product range includes sanitary and plumbing systems, and ceramics. Geberit products are innovative, durable and ecologically efficient. The main production sites are situated in Switzerland, Germany and Austria.
