WHY MORE AND
MORE HOMEOWNERS
ARE OPTING FOR
WALL-HUNG
SOLUTIONS

Today, more than ever, the key to enhancing buyer appeal is not just planning ahead, but designing ahead. With buyers increasingly looking for luxurious finishes in master bathrooms and en-suites, it's never been more important for developers to stay ahead of the game by adding real value to new projects. In a competitive marketplace, the level of finish can create an aesthetic point of difference and effectively clinch the sale. The trend for using wall-hung (or wall-mounted) technology to enhance bathroom appeal is now seen in many leading developments. The latest wall-hung toilets are affixed securely to Geberit Duofix frames which are neatly hidden behind the wall, creating a liberating sense of space.

ELEGANT DESIGN. EASY-CLEAN ACCESSIBILITY

The visual appeal of the wall-hung toilet lies in the fact that it hovers several inches off the floor, enabling easy cleaning both around and underneath it. Unlike a conventional close coupled toilet, there are no nooks and crannies where dust and germs can accumulate.

DIFFERENT TOILET OPTIONS FOR BATHROOM SPACES

CLOSE COUPLED

The ceramic toilet and cistern are fixed together and stand on the floor, traditionally requiring greater floor area due to the increased projection of the cistern

BACK-TO-WALL

The cistern is conveniently hidden behind the wall, creating cleaner lines, with the ceramic pan resting on the floor

WALL-HUNG

The cistern is neatly hidden behind the wall and the toilet is raised off the ground, creating a liberating sense of space and making the bathroom easier to clean and maintain

OUR WALL-HUNG
WC'S CAN
WITHSTAND A
WEIGHT OF UP TO

400kg

WHICH IS THE EQUIVALENT OF
A FULL GROWN POLAR BEAR

DID YOU KNOW?

Attached to the wall, resulting in zero contact with the floor, wall-hung bathroom ceramics and wall-hung furniture have concealed cisterns and installation frames hidden behind the wall **RESULTING IN A REDUCED OUTWARD PROJECTION**

SUPERIOR USE OF SPACE

Wall-hung toilets are an ingenious space saver; out of sight but very much front of mind for today's forward-looking specifiers.

Freed from the bulky constraints of having a visible cistern sitting on the pan, they take up significantly less space, enabling them to be fitted closer to furniture, shower enclosures or other ceramics.

Where space is at a premium, the use of a wall-hung option can liberate planning. With the cistern and frame cleverly concealed behind a stud wall and complemented by compact design choices, wall-hung toilets can optimise smaller spaces. By eliminating the clutter of conventional toilets which take up floor area, they create the illusion of a more spacious bathroom.

FIVE GOOD
REASONS
TO GO
WALL-HUNG

60
Mio

DURABLE

Installed 60 million times over the past 50 years, Geberit concealed flush plates represent the ultimate tried-and-tested solution.

SIMPLE MAINTENANCE

Simply remove the flush plate for access to all important parts. Geberit stock spare parts for you, for 25 years.

VERY STRONG

No wobbling or vibrations - strength-tested to bear a weight of up to 63 stone.

HYGIENE: SIMPLE CLEANING

No pedestal and no cistern in front of the wall means no exposed pipework for dirt and bacteria to hide.

TESTED IMPERMEABILITY

Every Geberit cistern is individually tested to guarantee water tightness.

THE BEAUTY OF THE WALL-HUNG SOLUTION

Geberit wall-hung solutions offer the best of all worlds for any project. Unlike traditional close coupled designs, the cistern can be concealed out of sight, maximising space whilst offering developers the ultimate in design minimalism. They also offer greater design freedom than conventional back-to-wall designs, because the pan is suspended above the floor, creating a contemporary look that is sleek, modern, easy-to-clean and perfect for today's busy lifestyles.

SPACE MAXIMISATION

STYLISH BUT COMPACT SOLUTIONS TO MAXIMISE SPACE

GEBERIT HANDRINSE BASINS

Space saving and compact basins in a range of shapes and styles to meet your residential project requirement – striking a balance between design and function.

GEBERIT SHORT PROJECTION WC'S

Our team of designers have created a range of WC solutions that optimise the room size available, without compromising on efficiency or the user experience.

GEBERIT WASHBASIN FURNITURE STORAGE

Ideal for maximising storage space in smaller bathroom spaces and even in ensembles, our range of washbasin furniture solutions come in a range of designs, colours and styles to meet the requirements of your residential project.

CHOOSE FROM A FULL RANGE OF STYLES

THE ADVANTAGES OF GEBERIT WALL-HUNG TECHNOLOGY **FOR HOMEOWNERS**

- Enable homeowners to enjoy the latest bathroom trends, enhancing well-being and maximising space
- Future-proof the home with the latest tech such as quieter flush solutions and touchless flush plates (Creating a 'forever home' solution via future-ready design)
- Family friendly - perfect for those with children or the elderly (Because seat height can be adjusted for preference, Duofix makes raising or lowering easy)
- Reliably **strong and durable** – the robust frame and toilet are strength-tested to support a weight of up to 63 stone with no wobbling or vibrations
- **Advanced sustainability** – the standard flush is 6/4 litres and can be set to flush on 4/2.6 litres
- Effortless style – with a range of aesthetically pleasing designs to choose from
- **Space saving** and space transforming, they're more compact, more ergonomic and easier to clean, creating clean lines in the bathroom
- **Greater hygiene** - with no pedestal, cistern or exposed pipework everything is infinitely easier to clean, with no place for germs or dust to accumulate
- A **modern** and increasingly popular alternative to close coupled across the UK
- Superior acoustics, minimising flushing in any building for a **quieter home life**
- The innovative design means that everything is hidden away behind the wall while Rimfree® technology totally eliminates the rim, giving germs nowhere to hide

Seat height can be adjusted for preference

Dual flush gives two flushing options to help save water

Leak proof due to one piece blow moulded cistern

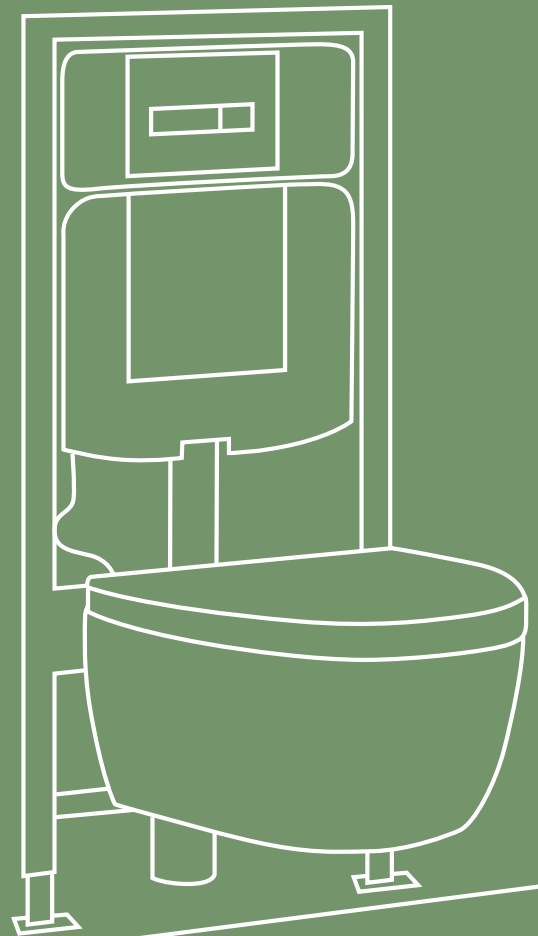

Acoustic features in all the right places

Comprehensive range for all applications

Strength tested to bear a weight of up to 63 stone

FAQ's

Once installed, will you ever be able to access the cistern again?

Yes. Our wall-hung solutions are designed for easy access and easy maintenance – installers simply remove the flush plate for access to all important parts, ensuring hassle free specification.

Because there are no visible means of support, will the pan fall down when you sit on it?

No, their outstanding strength, can stand up to anything. Each Geberit Duofix frame and wall-hung toilet is strength-tested to bear a weight of up to 63 stone. So, there will be no movement, not the merest vibration or the slightest wobble.

What if water trickles into the pan?

A correctly installed and maintained concealed cistern will not leak water into the WC pan. However, if problems occur - homeowners can easily try a water isolation test themselves to identify the issue. Spare parts are readily available for the flush valve seal, side fill valve and bottom fill valve.

TOTAL DESIGN FREEDOM AND COMPLETE BATHROOM EFFICIENCY

With millions of Geberit concealed installations around the world, we're sure to have just the right product for you. Whether installed under a window or in a corner to make better use of the space, or providing odour extraction in a cloakroom, the Geberit Duofix range is flexible enough to cover every application. Our frames can be installed pre-wall or into dry wall installations, giving you total design freedom without having to worry about structural building work.

BUXWORTH HOMES OPTS FOR WALL-HUNG SOLUTIONS

A CASE STUDY BY GEBERIT

Buxworth Homes wanted Geberit to provide a luxury washroom solution that gives the developer a unique selling point for home buyers in a competitive region. We were able to specify Buxworth Homes with the following wall-hung solutions:

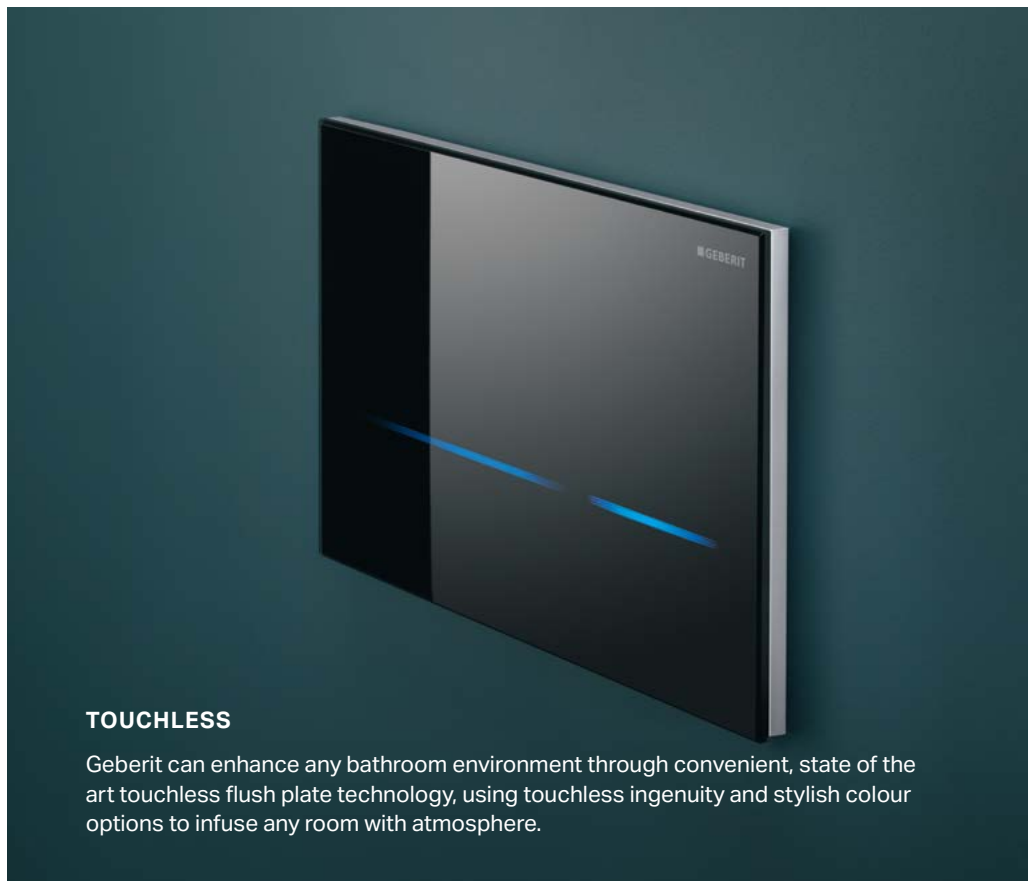

Geberit Acanto wall hung WC
Geberit Duofix prewall installation frames

Adam and the team specified Geberit's Duofix frame alongside both Omega and Sigma concealed cisterns in the homes. "We've been using Duofix for years, so it's been brilliant to now get this installed alongside the Geberit products for the first time," Adam says. "We know how simple the installation process is and how wall-hung frames like Duofix not only help maximise space in the bathroom but also give the space a sleek, streamlined look."

INNOVATION - FLUSHPLATES

FLUSHPLATES

You select the tiles that reflect your style. You accept no compromises when it comes to WC ceramic appliances and washbasin taps. Moreover, because making the right choice is important, at Geberit you will find the right flush plate to give your bathroom the crowning touch and to pamper you with comfort functions.

TOUCHLESS

Geberit can enhance any bathroom environment through convenient, state of the art touchless flush plate technology, using touchless ingenuity and stylish colour options to infuse any room with atmosphere.

INNOVATION

↑ ODOUR EXTRACTION WITH ORIENTATION LIGHT

With 92% of people believing that our mood is influenced by scent, lingering odours can be a real issue. Geberit solves this problem with technically advanced odour extraction units. Geberit Duofresh sits behind the Geberit Sigma40 flush plate and extracts unpleasant odours at source, direct from the toilet ceramic. The user-friendly unit is activated at the touch of a button and switches off automatically. Any unpleasant air is transferred to a powerful carbon filter, neutralised, refreshed and released back into the room.

↓ RIMFREE®

To facilitate easier, hygienic cleaning without the need for specialist cleaning products, why not use a Rimfree® WC, a patented flushing system with no rim. A flush guide sends the water stream along both sides to the exact areas where it is needed for a thorough flush. And because there is no rim, the smooth inner surface can be cleaned with one wipe.

THE GEBERIT ASPIRE COLLECTION

Introducing the new Geberit Aspire Collection. Providing you with leading ceramic solutions to create inspirational spaces that achieve functional goals and high-quality design.

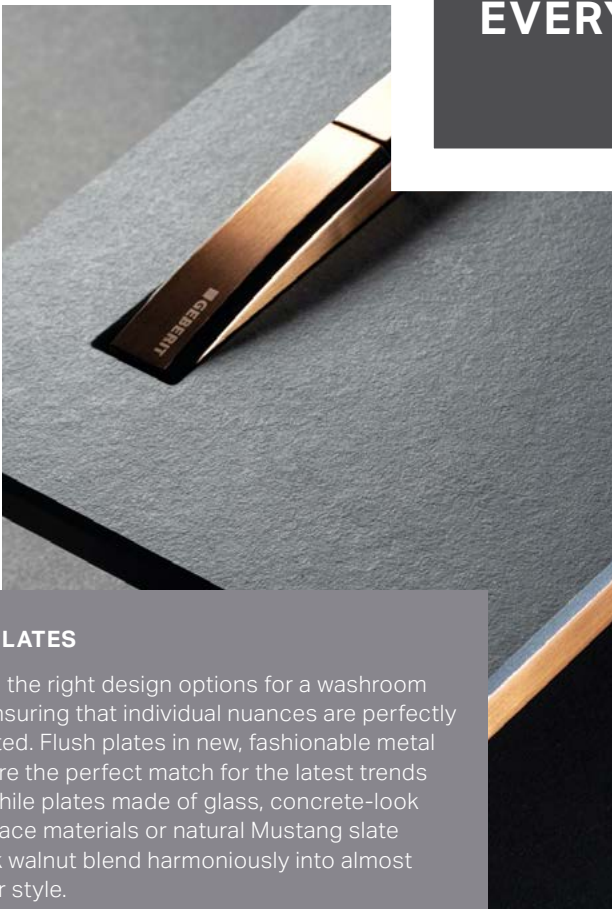

THE GEBERIT SELECT COLLECTION

Introducing the new Geberit Select Collection. Opening up a whole host of new functional, affordable and on-trend design possibilities for your next project.

THE COMPLETE PACKAGE FOR EVERY HOME.

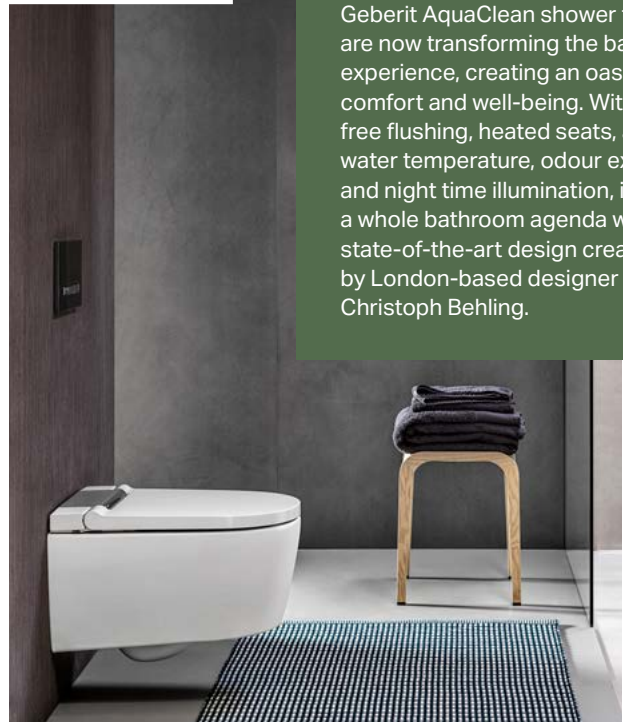

FLUSH PLATES

Selecting the right design options for a washroom means ensuring that individual nuances are perfectly coordinated. Flush plates in new, fashionable metal colours are the perfect match for the latest trends in taps, while plates made of glass, concrete-look solid surface materials or natural Mustang slate and black walnut blend harmoniously into almost any decor style.

GEBERIT AQUACLEAN SHOWER TOILETS

Geberit AquaClean shower toilets are now transforming the bathroom experience, creating an oasis of comfort and well-being. With hands-free flushing, heated seats, adjustable water temperature, odour extraction and night time illumination, it sets a whole bathroom agenda with state-of-the-art design created by London-based designer Christoph Behling.

WHY GEBERIT IS THE PERFECT PARTNER FOR YOUR NEXT DEVELOPMENT

YOUR DEDICATED SPECIFICATION SALES MANAGER

From design and planning to training and technical support. Our team of dedicated Specification Sales Managers will be with you every step of the way to support your project from inception to fruition. Supported by our in house customer support and technical teams to ensure a smooth running project.

PRODUCT AVAILABILITY

At our logistics centre in Pfullendorf, Swiss precision and smart technologies are matched by smarter support. From this central European hub, we have the capability to match your changing needs instantly, adapting to order fluctuations, accelerating production to meet demand and offering excellent supply continuity.

AT GEBERIT, EXPERIENCE AND KNOW-HOW RUNS THROUGH EVERYTHING WE DO. OUR INNOVATIVE, FULLY INTEGRATED PRODUCT RANGE MAKES US THE PERFECT PARTNER FOR YOUR NEXT DEVELOPMENT.

DESIGN REALISATION WITH VIRTUAL TOOLS

Our Specification Support team are here to create your project design realisation. We'll support your design creation with tools such as Virtual Worlds to enable you to visualise the final space and offer design visualise for your future homebuyers. Plus, we offer BIM and CAD files instantly ready to download for your own design teams to access the latest products from across the Geberit range - allowing efficient project planning.
