OUR APPROACH

Sustainability has been an integral part of Geberit's corporate strategy since 1990, with the goal of using innovative sanitary products to continuously improve people's quality of life. To achieve this, we develop sanitary products and services while taking economical, ecological and social aspects into account. As the European market leader, we want to contribute to a more sustainable sanitary industry.

OUR KEY FOCUS

Environmentally friendly, resource-saving, durable products are extremely important at Geberit. The key here is eco-design, with all products developed consistently in line with the eco-design principle since 2007: Seen across the entire product life cycle – from the provision of raw materials to disposal – each product must be better than its predecessor from an ecological perspective, without sacrificing on quality, functionality or durability. Eco-design covers all stages of this life cycle, thus contributing to the circular economy.

Geberit, has received a Platinum seal from EcoVadis in recognition of its best-in-class sustainability management. This is the second consecutive year that we have attained the Platinum rating and cements the company's position as a sustainability leader within the sanitary industry.

25 YEARS SPARE PARTS AVAILABILITY

QUALITY GUARANTEED

Geberit concealed cisterns are now classics in modern bathroom installation. The proverbial Geberit quality ensures that you can always count on clean and thorough flushing of your toilets. Our one-piece, blow-moulded cistern can be easily accessed at any time, simply remove the flush plate for quick and easy maintenance.

PRODUCT CONFIDENCE

Due to extensive product testing Geberit offers a 25 year spare part availability for all working parts within Geberit concealed cisterns and flush plates.

This gives new construction or renovation the safety and security of parts availability for years to come.

THOROUGHLY TESTED

In the endurance testing labs, cisterns, filling valves, shower toilets, flush plates and taps are subjected to computer-controlled lifecycle testing.

150 cisterns are simultaneously evaluated at a rate of at least 200,000 flushes per cistern.

The results of short and long-term testing serve as a guideline for production release and country-specific approvals.

THE PERFECT BALANCE. DESIGN MEETS FUNCTION

We use our passion for design and technology to inspire and excite people all over the world. By applying our vast Know-How and almost 150 years of experience, we ensure our products are not just beautiful to look at, but truly make life easier and more comfortable.

Responsibly made from fine and durable materials, Geberit products are a perfect balance of elegant design and outstanding function. They are easy to clean, easy to use and increase comfort.

Design Meets Function is the name given to this fusion of outstanding functionality with aesthetic design for the entire bathroom.

INSPIRATIONAL BATHROOMS. DESIGNED FOR LIFE

Geberit is a European market leader in the field of sanitary products, providing outstanding added value in sanitary technology and bathroom products.

Geberit is a global ambassador for quality with sales offices in over 50 countries. There are 29 production sites worldwide, with headquarters in Rapperswil-Jona, Switzerland, where Caspar Melchior Albert Geberit founded the company in 1874.

Over 12,000 employees are committed to providing customers with innovative, sustainable and durable products of the highest quality. We pride ourselves on our strong competence for innovation, enabled and supported by the Group's wide-ranging research and development activities. Customers can rest assured that new products meet their needs – not to mention the very highest quality standards.

FROM A SINGLE SOURCE

GEBERIT QUALITY FOR THE ENTIRE BATHROOM

CREATE YOUR SANCTUARY

Our bathrooms are so much more than a place to wash. There are many ways to make sure your bathroom has it all. Relaxing but functional, spacious yet full of storage and clean without compromising on design.

IT'S ALL ABOUT **HYGIENE**

Touch

Hygienic, clean, and well flushed. Domestic, semi-public and public toilets are always inviting to users with safe, touchless solutions for toilet flush activation which ensure the reliable actuation of a flush with every use.

Sight

Keeping the bathroom spotless is a must because cleanliness and hygiene are important, especially in the bathroom. Tricky corners and difficult-to-reach places turn cleaning into a hassle so switching to simple, modern lines looks clean and up-to-date, and eliminates areas for dirt and bacteria to hide. Rimfree® technology applies these principles to the toilet for a hygienic flush every time.

Smell

Bad odours in the bathroom are a universal problem and we all have our own ways of trying to get rid of them, from burning incense and spraying air fresheners to leaving windows open. Even the slightest odour can trigger associations, and we naturally associate fresh fragrances with cleanliness and hygiene.

Whereas air fresheners only mask odours temporarily and open windows can let in cold air, the Geberit DuoFresh module works without any undesired side effects. The odour extraction unit has a number of advantages; it starts automatically as soon as someone sits down on the toilet and the air is extracted directly from the toilet and returned to the room once it has been purified, meaning that odours don't spread throughout the bathroom. The DuoFresh module can be easily installed into any Geberit Sigma cistern and combined with virtually any flush plate in the Sigma range.

WE ALL NEED A LITTLE **SPACE**

For the vast majority of people, the bathroom is hardly a spacious room. At Geberit we understand that space can be limited and design with that in mind, ensuring that smaller spaces can perform as well as, and look just as good as larger ones. This is particularly true for cloakrooms and ensuites, where space-saving solutions need to be both functional and stylish, and so we develop products that maximise the available space and create more room for storage.

Short projection

The Geberit Selnova Compact range offers ideal solutions for stylishly fitted out small bathrooms, ensuites and guest toilets. Short projection toilets and handrinse washbasins with a short depth save those crucial few centimetres that make such a difference in a small room.

Wall-hung

Lifting the ceramic off the floor with a wall-hung toilet and concealing the cistern behind the wall makes the appearance of your bathroom tidier and more spacious. Wall-hung toilets have been a standard feature in modern bathrooms for decades and have proven their worth in millions of installations. Our Geberit Duofix frames offer a wall-hung solution for any bathroom, whether you need to squeeze a toilet under a window in a guest bathroom, or you want to give your family bathroom a modern update, there is a frame that's perfect for you.

Storage solutions

At Geberit we develop products which ensure you have space for everything you want to store, without compromising on taste and design.

Our bathroom furniture ranges include perfectly fitting washbasin cabinets with plenty of storage space for narrow washbasins, and different washbasin shapes. This makes it possible to transform even small bathrooms, guest bathrooms and rooms with difficult layouts whilst creating crucial storage space using our space-saving designs.

WELLBEING STARTS IN THE BATHROOM

Now more than ever, we are aware of the importance of wellbeing and self-care. As the room where we start and end our days, the bathroom presents the perfect opportunity to take time for yourself in a calm and clean atmosphere.

Lighting

Lighting can affect our mood, and according to the Illuminating Engineering Society, the direction of a light source can transform a space and affect how a room might make us feel.

The IES advises, for instance, that lighting positioned above eye level can create a feeling of restraint, creating a more formal atmosphere. On the other hand, lighting positioned below eye level can invoke a feeling of individual importance and help establish a more informal setting. Meanwhile, exposure to harsh light sources, especially in the middle of the night can shock us and stimulate our sense of alertness, disturbing our natural sleeping patterns. Adding other sources of light such as an illuminated mirror cabinet can help switch the mood of your bathroom, from a bright space to start your day, to a relaxing environment to end your day.

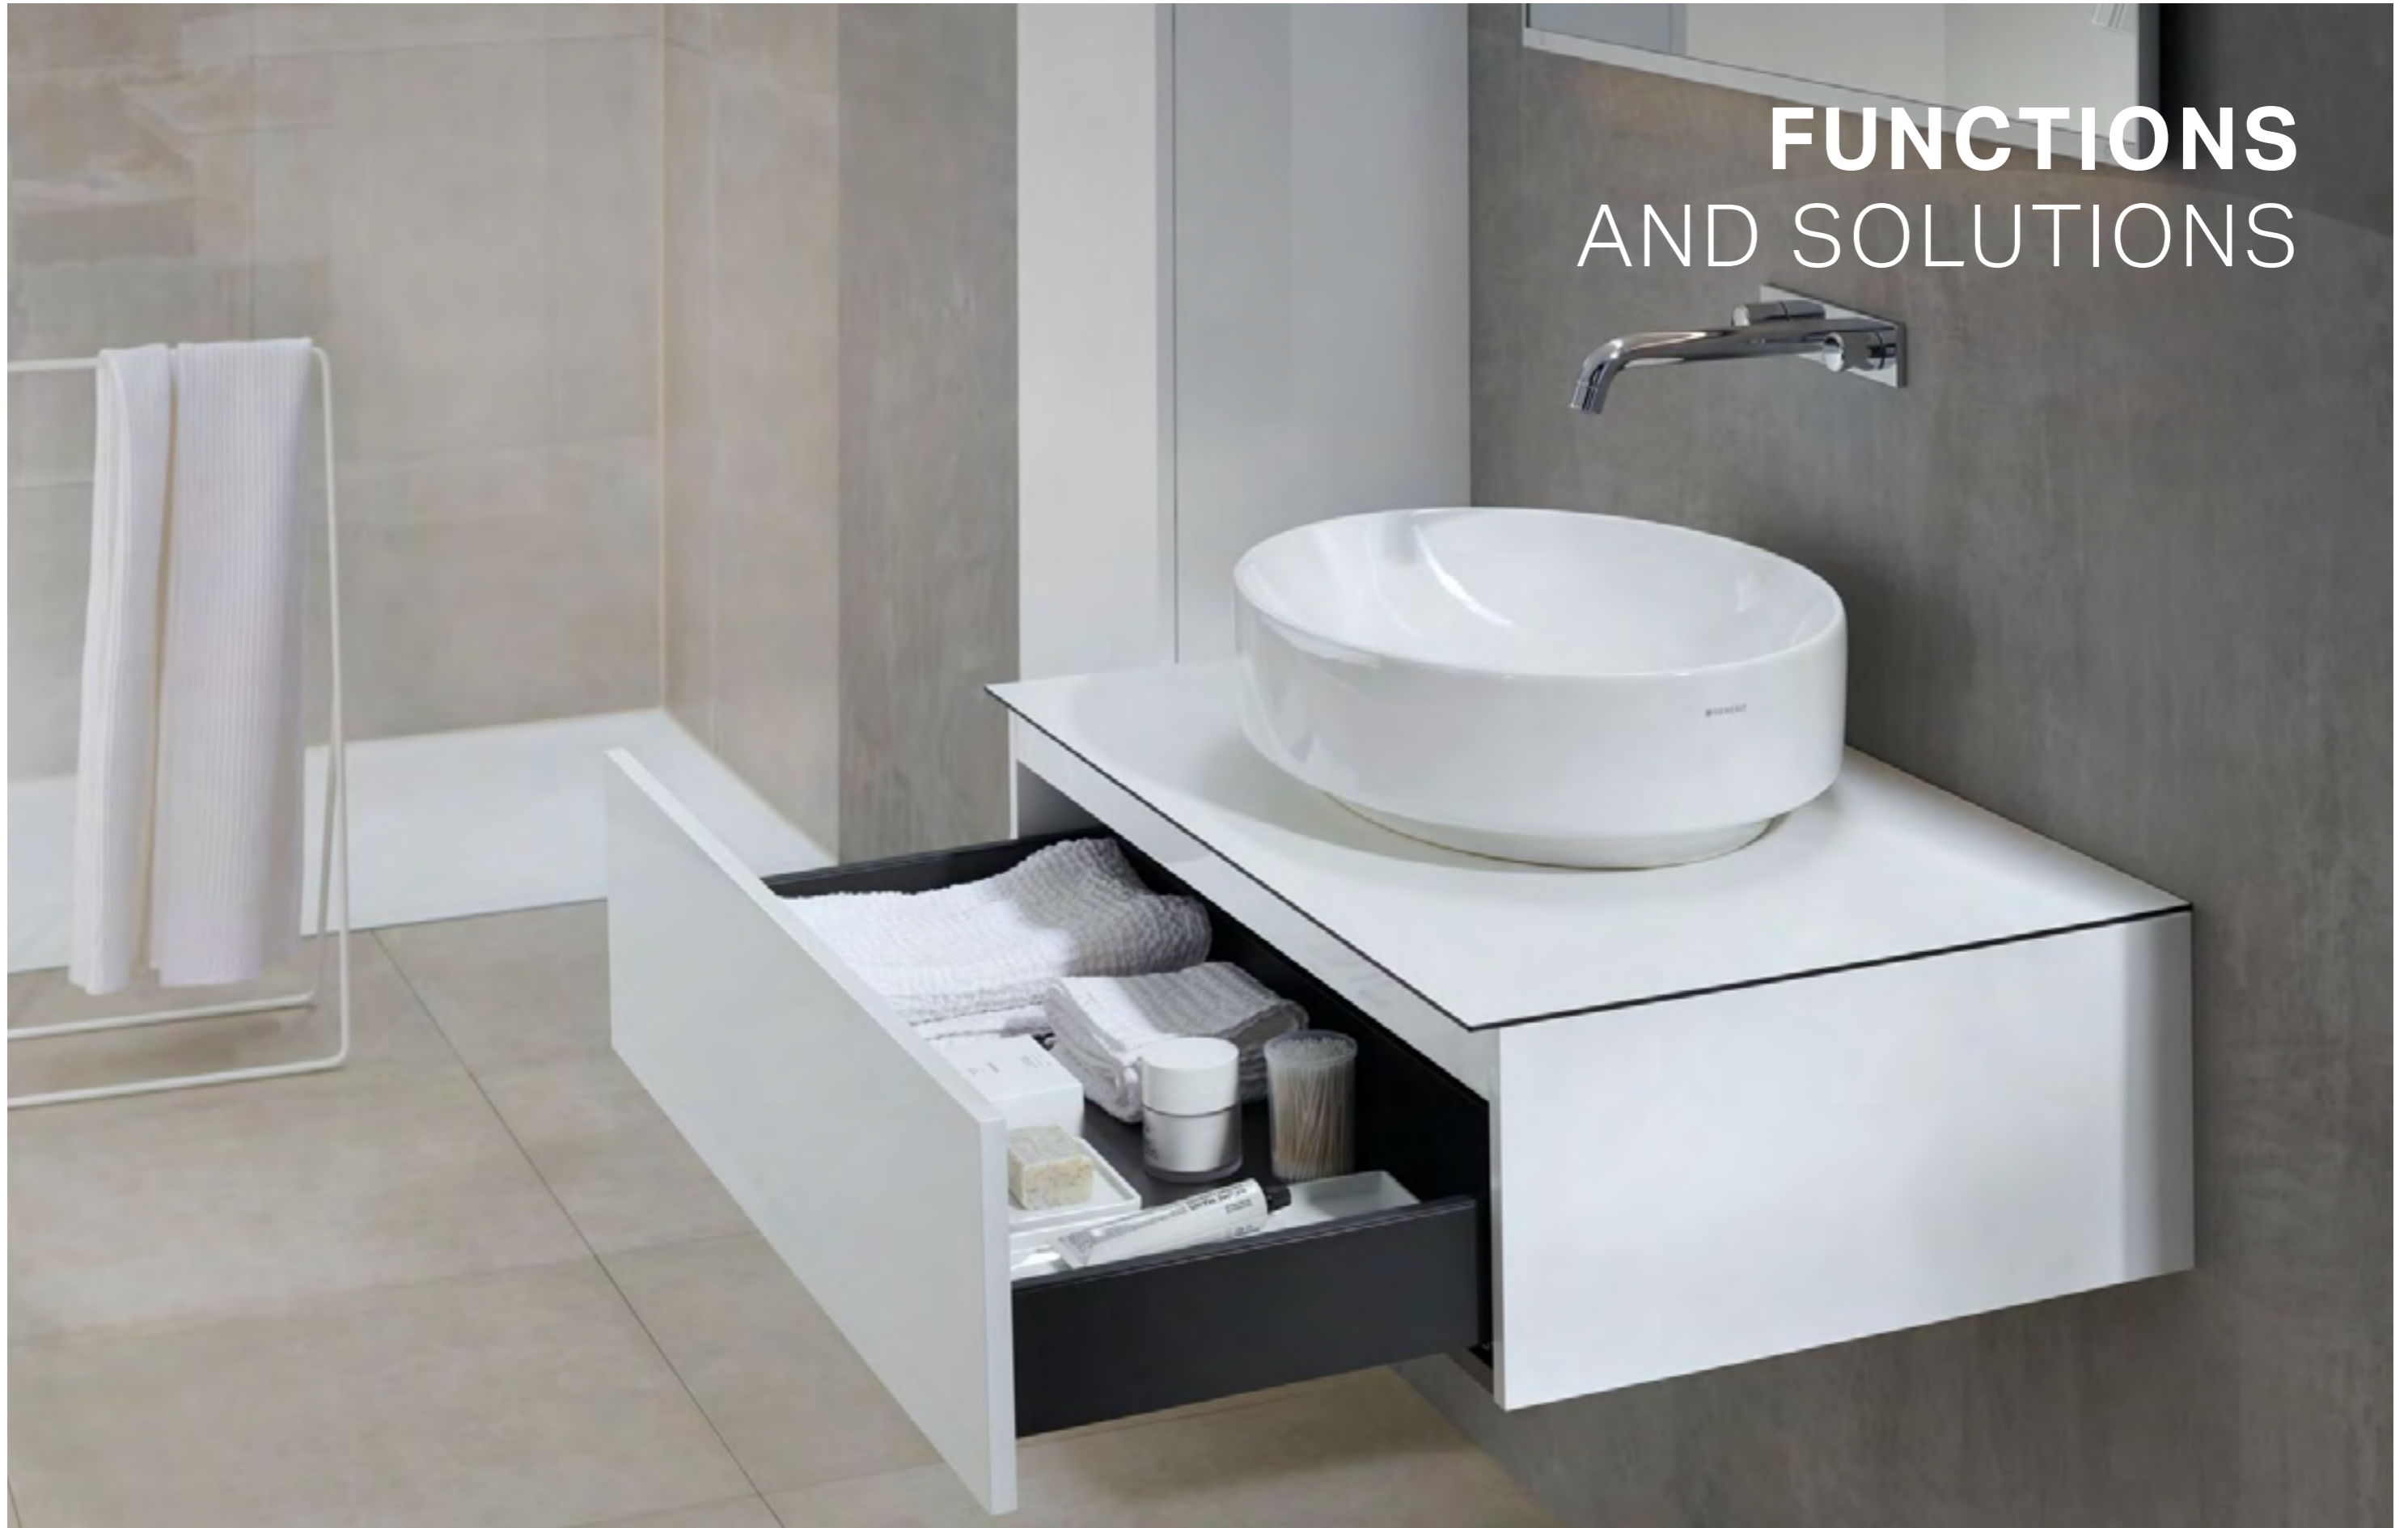

The fresh feeling

Water is indispensable for daily personal hygiene. It cleans, freshens, and lends a unique feeling of wellbeing, which is why more and more people are embracing the natural and beneficial experience of cleaning with water. Geberit AquaClean shower toilets offer you this wellbeing at the touch of a button. Experience the completely new feeling of freshness and enjoy the extra helping of self-confidence throughout the whole day.

And relax

Enjoying a bath in your own bathroom provides a moment of peace, relaxation, and regeneration – one of the best ways to escape our everyday lives. Treat yourself to a little spa feeling in warm water.

FUNCTIONS AND SOLUTIONS

Wall-hung toilets give bathrooms a neat and tidy appearance and make cleaning the floor easier. They have been a standard feature in modern bathrooms for decades and have proven their worth in millions of installations.

DESIGN

WALL-HUNG TOILET SOLUTIONS

63 Stone **VERY STRONG**
No wobbling or vibrations - strength tested to bear a weight of up to 63 stone.

60 Mil **DURABLE**
Installed 60 million times over the past 50 years, Geberit concealed cisterns and flush plates represent the ultimate tried and tested solution.

HYGIENE: SIMPLE CLEANING
No pedestal and no cistern in front of the wall means no exposed pipework for dirt and bacteria to hide.

TESTED IMPERMEABILITY
Every Geberit cistern is individually tested to guarantee water tightness.

SIMPLE MAINTENANCE
Simply remove the flush plate for access to all important parts. Geberit stock spare parts for 25 years.

ACOUSTIC SOLUTIONS
Acoustic solutions with the Geberit Duofix frame mean it's all quiet behind the scenes.

www.geberit.co.uk

INNOVATIVE FLUSH TECHNOLOGY

Geberit Rimfree® toilets are equipped with a specially developed and patented flush guide which ensures a targeted and hygienic flush every time.

Rimfree®

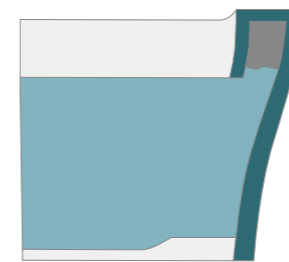

CLEANLINESS

EASY TO CLEAN RIMFREE®

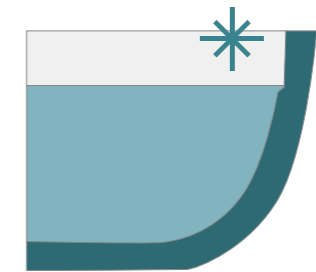

Keeping the bathroom spotless is a must, because cleanliness and hygiene are important, especially in the bathroom. Cleaning should not become a hassle where one has to deal with tricky corners and difficult to reach places. Most people would also rather avoid handling harsh cleaners. Modern bathrooms are neat and orderly so it comes as no surprise that this trend also applies to the toilets, with the introduction of Geberit Rimfree®.

Geberit has introduced a completely new and patented flush technology. The flow of water is controlled just before it reaches the ceramic pan. A flush guide sends the water stream along both sides to the exact area where it is needed for a clean and thorough flush.

www.geberit.co.uk

↑
Common toilet pans depend on a flush rim which cannot easily be cleaned. Dirt and bacteria accumulate in this difficult to reach place resulting in unpleasant odours.

↑
With the Geberit Rimfree® technology however, there is no rim. The smooth inner surface of a Geberit Rimfree® toilet pan is cleaned with one swipe. And best of all, you can immediately see if all dirt has been removed.

COMFORT CLEANLINESS AT THE TOUCH OF A BUTTON

Geberit has spent the past 40 years continuously fine tuning the shower function and spray, the centrepiece of any shower toilet. At the same time, we have invested in developing innovative technology and comfort functions, making our shower toilets the market leader. Depending on the model, a host of features make for a truly pampering experience.

www.geberit-aquaclean.co.uk

NO UNPLEASANT ODOURS*
The odour extraction unit removes unpleasant odours as the system starts automatically upon sitting.

YOUR OWN PERSONAL WELLBEING PROGRAMME
The intuitive remote on the Geberit Tuma Comfort provides hand-held control, and the touch of a button is all it takes to call up personal settings. The Geberit App is available on Tuma Comfort and Tuma Classic.

SUPERIOR COMFORT*
The high quality ergonomic seat features integrated heating.

GENTLE PERSONAL HYGIENE*
With an additional shower spray, the gentle lady shower ensures safe personal hygiene using pure water.

USER-ORIENTED*
An in-built proximity sensor activates the water heating system and seat heating on approach.*

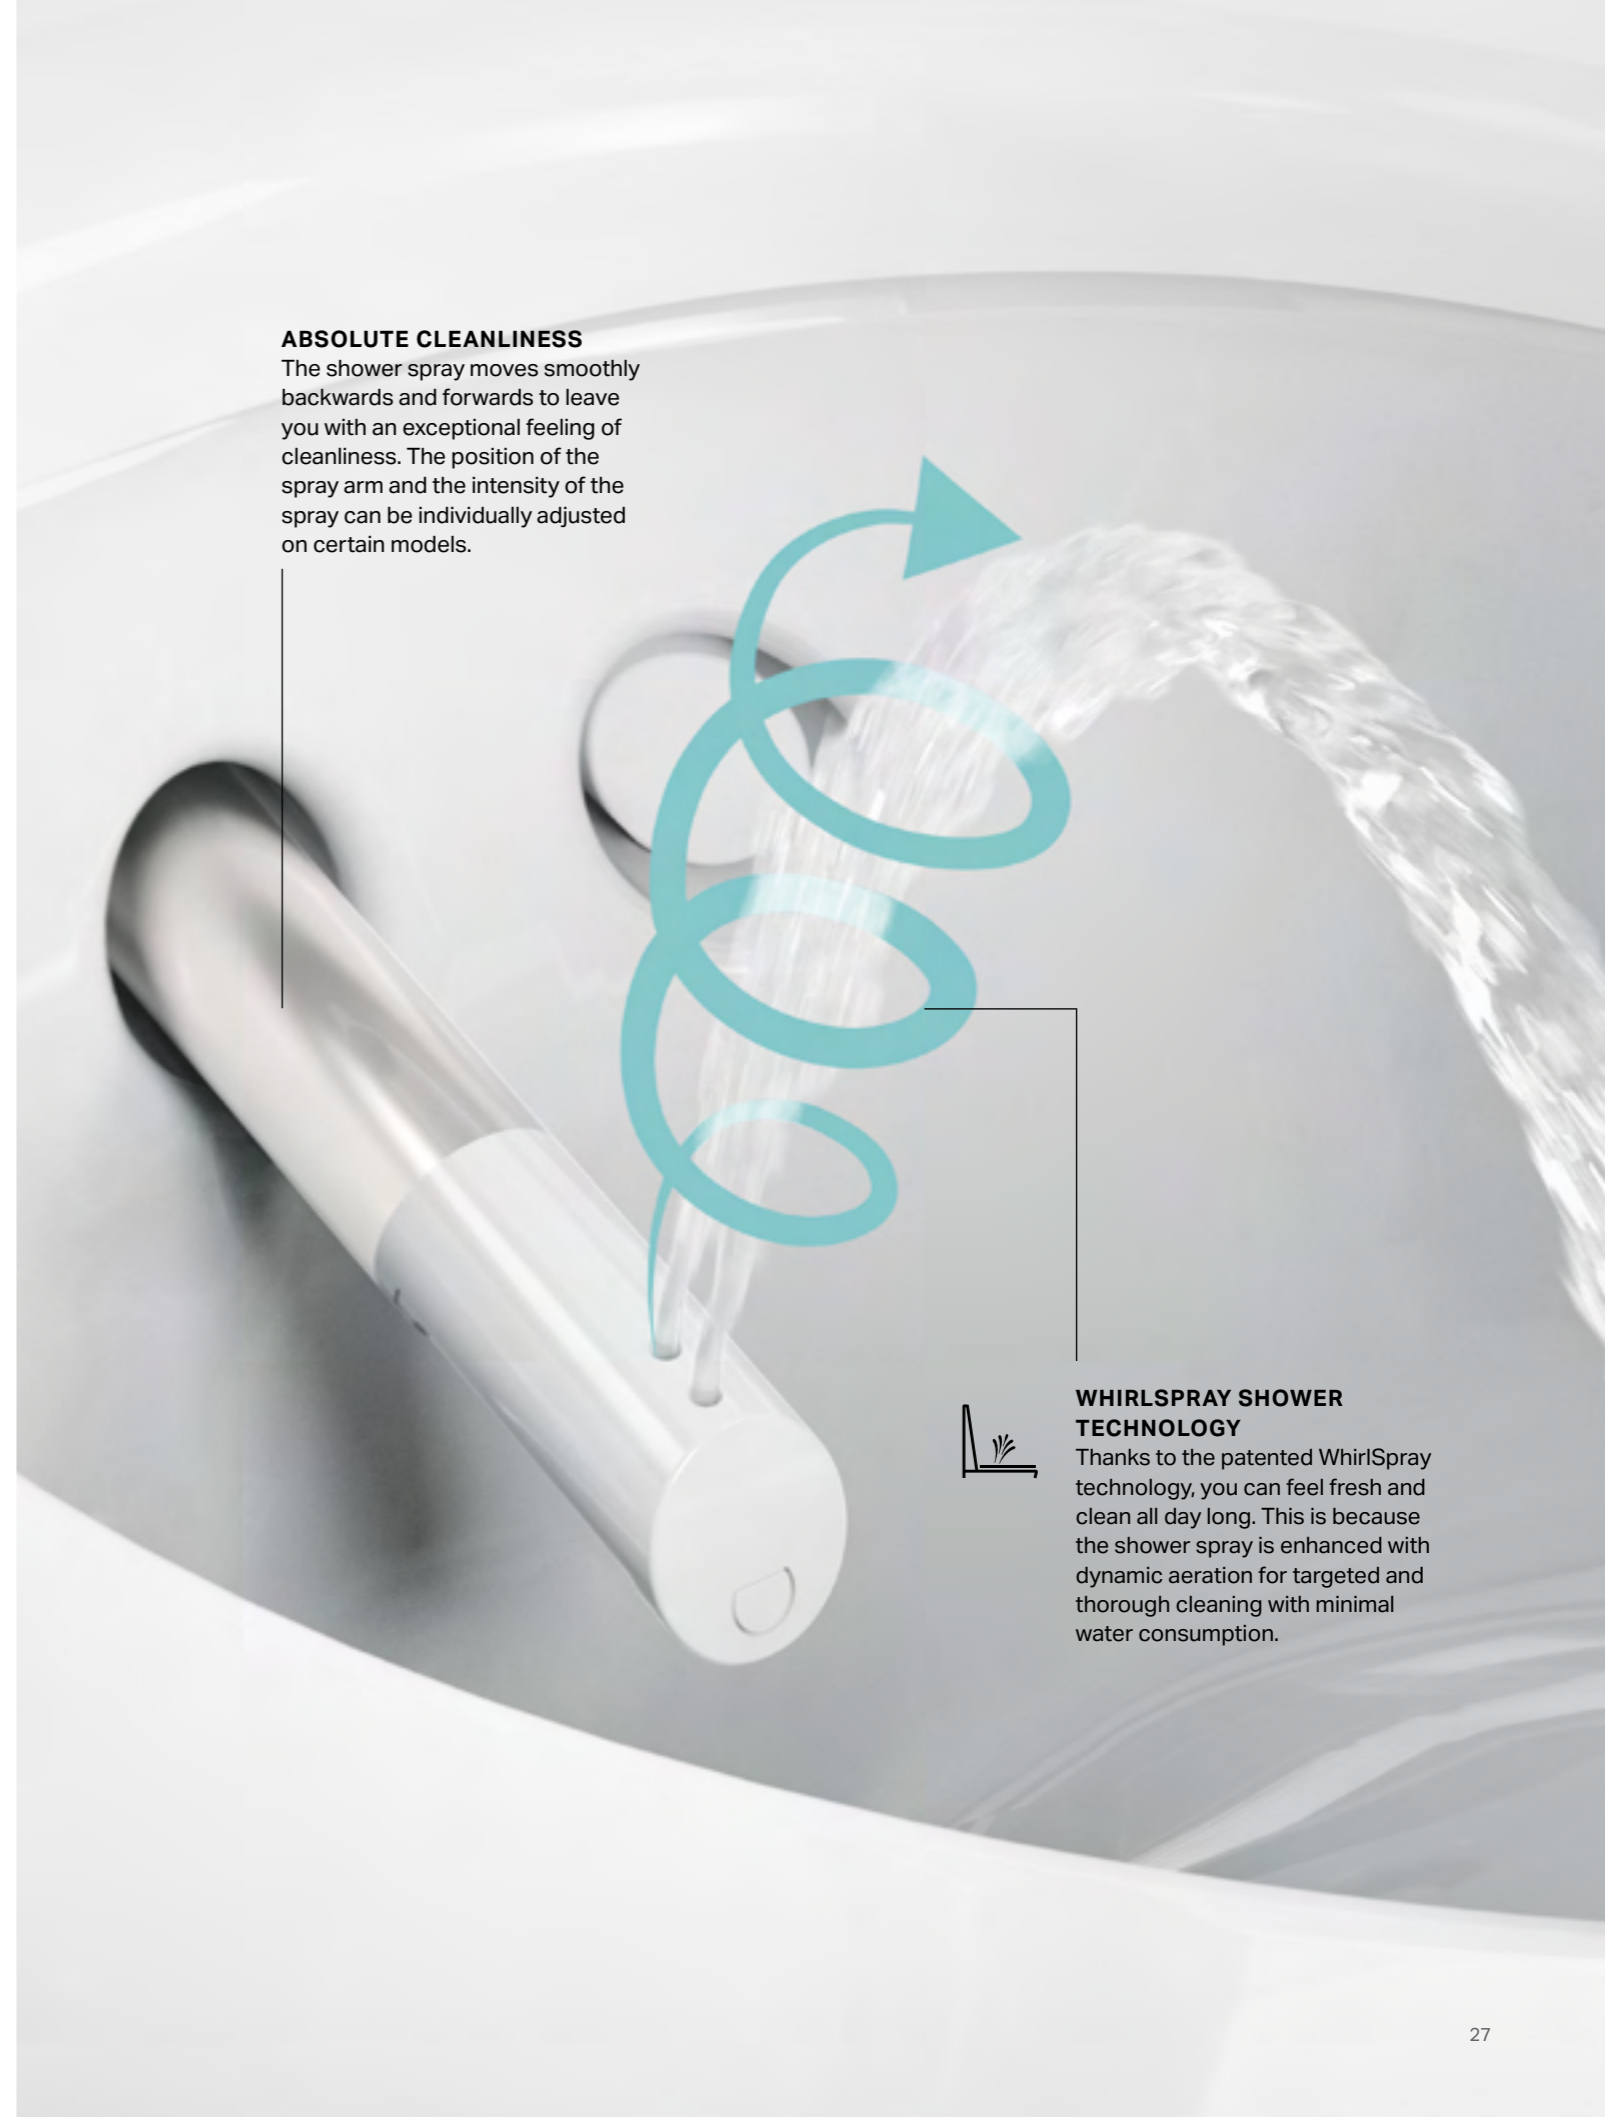

GENTLE DRYING
For soft, gentle drying, the warm air dryer is the perfect solution and features five individually adjustable temperature settings. The built in nozzle in the spray arm is protected when not in use.

PRACTICAL AND EASY TO MAINTAIN
From the easily removable seat and lid to the automatic descaling programme, Geberit AquaClean shower toilets are specifically designed to be cleaned and maintained with minimal effort throughout their long service life.

*Available on Geberit AquaClean Tuma Comfort shower toilet only.

ABSOLUTE CLEANLINESS

The shower spray moves smoothly backwards and forwards to leave you with an exceptional feeling of cleanliness. The position of the spray arm and the intensity of the spray can be individually adjusted on certain models.

WHIRLSPRAY SHOWER TECHNOLOGY

Thanks to the patented WhirlSpray technology, you can feel fresh and clean all day long. This is because the shower spray is enhanced with dynamic aeration for targeted and thorough cleaning with minimal water consumption.

COMFORT

DUOFRESH MODULE

UNPLEASANT ODOURS IN THE TOILET ARE A THING OF THE PAST

It is completely normal to have an extractor fan over a hob in the kitchen to remove unpleasant odours and now the same principle is available in the bathroom. The Geberit DuoFresh module removes the air directly from the toilet, purifies it using a ceramic honeycomb filter and then returns it to the room. This is extremely effective, as it prevents unpleasant odours from spreading throughout the bathroom in the first place, rendering air fresheners, lighting matches and opening windows completely unnecessary. Thanks to a proximity sensor, the odour extraction switches on automatically as soon as someone sits down on the toilet. The odour extraction is a great idea for guest toilets, and this feature can be further enhanced by using the in-cistern sticks which add a subtle, fresh fragrance to the room.. The Geberit DuoFresh module can be easily installed in any Geberit Sigma cistern and can be combined with almost any flush plate from the Sigma range.

www.geberit.co.uk

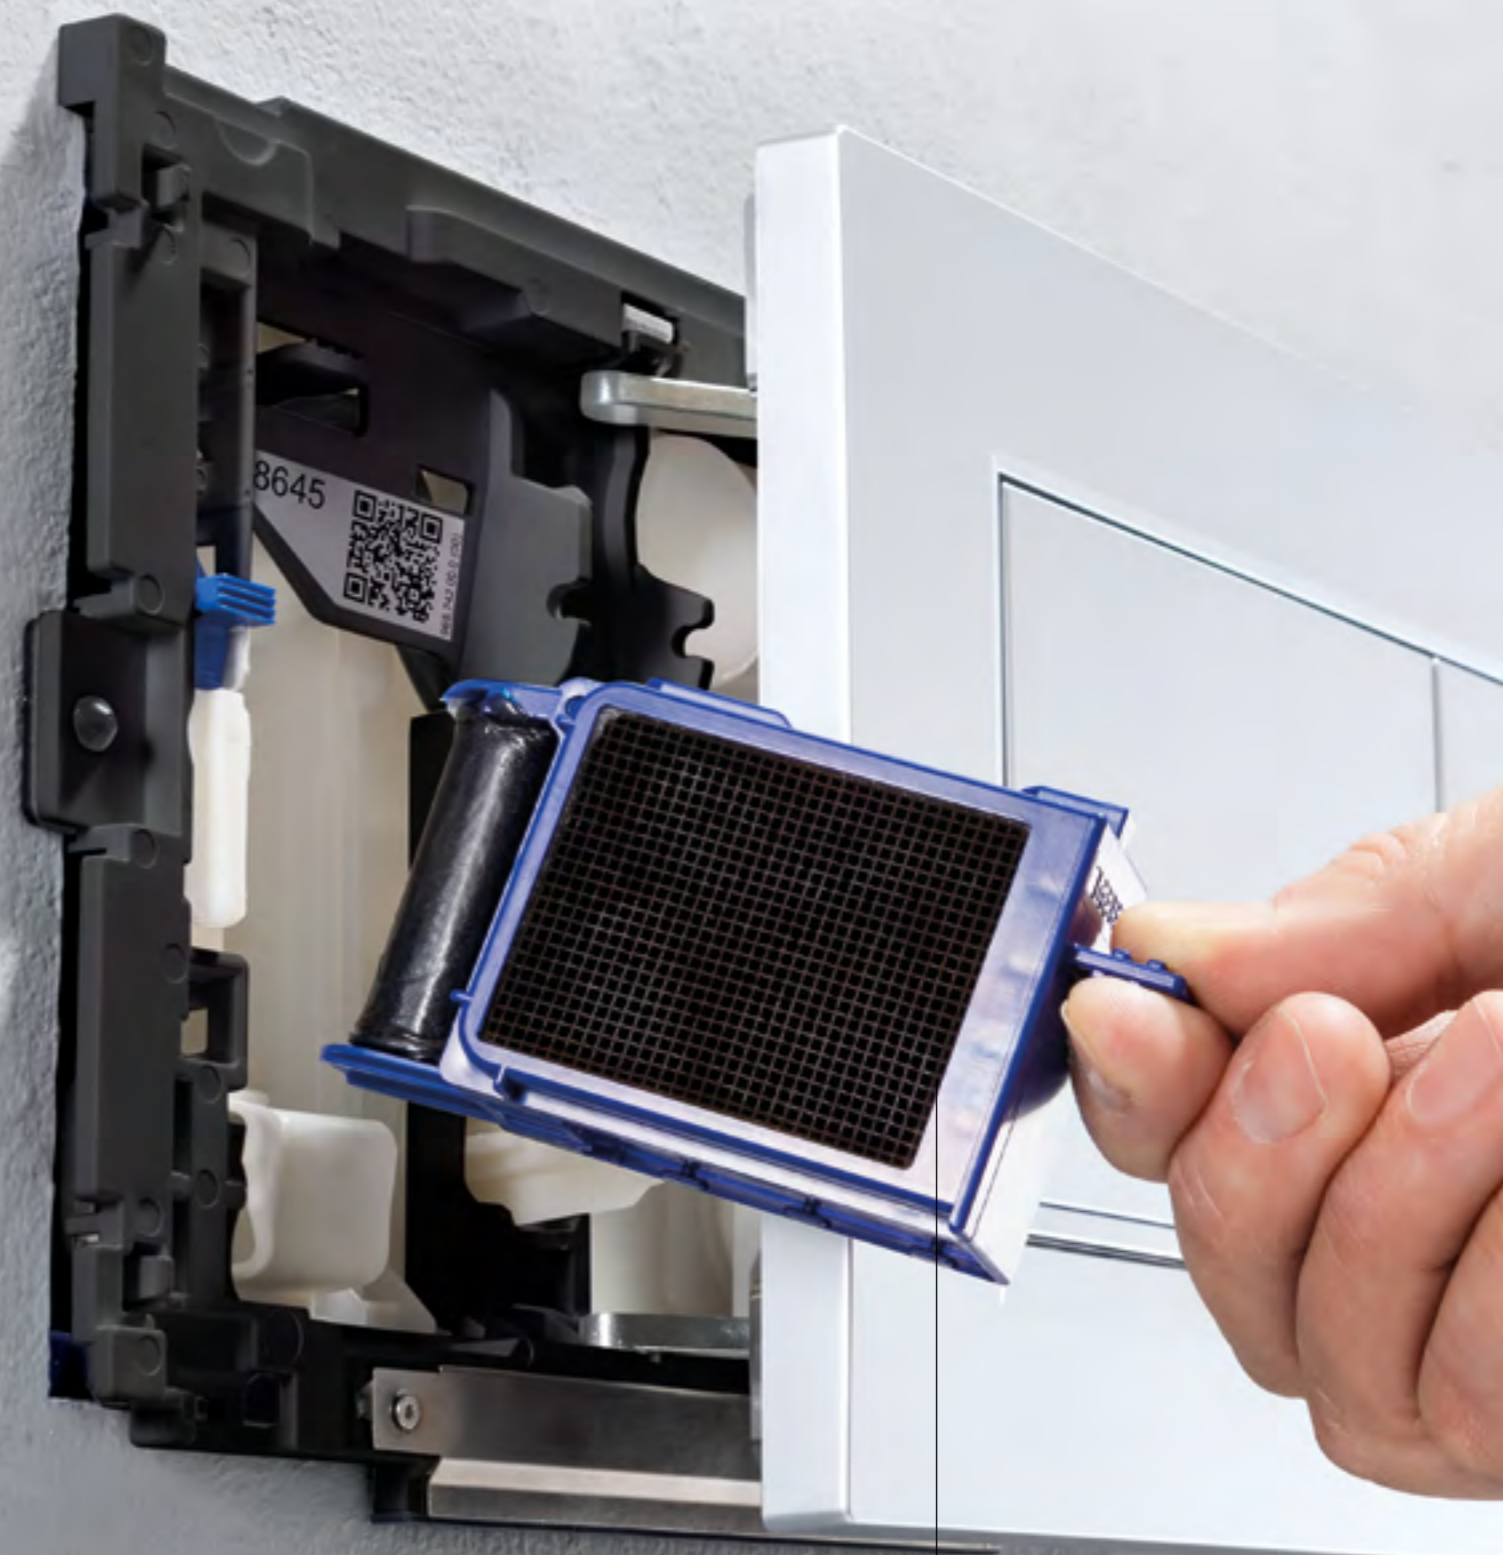

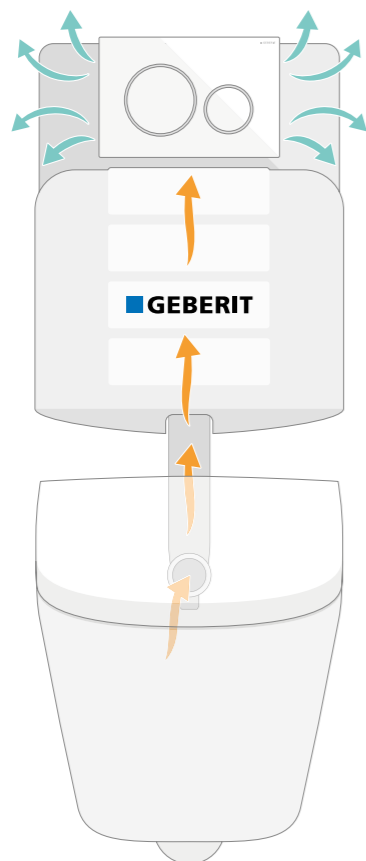

EFFICIENT
The air is purified by the ceramic honeycomb filter.

QUIET
A quiet fan conveys the purified air back into the room.

ACCESSIBLE
The ceramic honeycomb filter and insert for in-cistern sticks can be easily accessed via the flush plate.

GEBERIT DUOFRESH MODULE
The ceramic honeycomb filter is easily accessible via the flush plate.

SPACE-SAVING **SMART STORAGE**

Elegant surfaces, clean designs and elements that work beautifully with the ceramics; Geberit furniture transforms bathrooms into harmonious spaces.

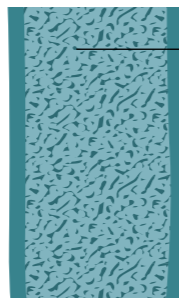

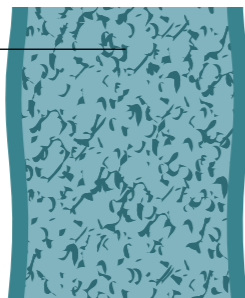

Only high quality, moisture resistant materials and highly durable fittings are used. The Select Collection series comprises of a wide range of bathroom cabinets which will enhance any room layout. Further elements such as mirrors and mirror cabinets are available to complement each series. The collections incorporate many details including the clever arrangements of compartments; drawers that not only create practical storage space, but enhance the bathroom aesthetics.

www.geberit.co.uk

DURABLE AND RELIABLE

Geberit bathroom furniture is produced using high quality and moisture resistant wood based panels. Medium density fibreboard (MDF) is used, as well as high density chipboard, which prevents moisture damage. The edges are additionally sealed with PUR glue to prevent swelling.

STANDARD MATERIAL
Absorbs moisture like a sponge.

MOISTURE RESISTANT MATERIAL
Wood based panels designed for places with high humidity.

MOISTURE RESISTANT

Clever details such as well positioned profile handles, easy-glide, soft close on drawers and door rails make Geberit bathroom furniture a joy to use.

EVOLUTION OF THE BATHROOM

CHOOSE THE RIGHT SOLUTION FOR YOU

Do you remember when TVs were large, chunky and placed on a stand or cabinet? Now it's more likely to see them hung on a wall as it's not just technology that is constantly evolving, so too is furniture and home-product design. The latest must have for the bathroom is a back-to-wall or wall-hung toilet which transforms a room into a spacious, contemporary bathroom.

CLOSE COUPLED

A close coupled toilet is a more traditional solution. As you can see from the image the cistern is visible and sits on top of the pan, either with a lever or push button flush.

This is the ideal solution if you have a project with a modest budget.

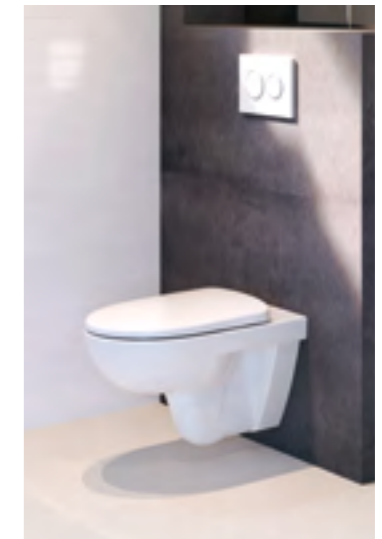

BACK-TO-WALL

Back-to-wall toilets allow you to hide the cistern behind the wall, creating more space and reducing the amount of ceramic both on show, and to clean, in the bathroom.

To create this solution, you can pair any Geberit back-to-wall toilet with a Geberit concealed cistern, and flush plate, to complete the look.

Our Geberit flush plates allow you to access the cistern inside the wall for any repairs or maintenance.

WALL-HUNG

Wall-hung toilets free you from the bulky constraints of having a visible cistern sitting on the pan. They take up significantly less space, enabling you to add more storage solutions or allowing you to fit in that walk in shower you've always dreamed of.

Where space is at a premium, the use of a wall-hung option can liberate planning. The smart way to install sleek, modern looking wall-hung toilets is with Geberit Duofix frame systems which cleverly hide the cistern and frame behind the wall. You can also pair with a stylish flush plate of your choice.

FLUSH PLATE

CISTERN

DUOFIX FRAME

WALL-HUNG TOILET

DUOFIX FRAMES

Strong, secure and flexible, our frame systems sit within the wall and are bolted to the floor, supporting the sanitaryware and keeping it firmly in place.

With Geberit Duofix frames it's easy to create a great contemporary look in any size bathroom or cloakroom with our range of frames. Whether you want to fit a toilet under a window or give your built-in furniture a refresh with a wall-hung toilet, there is a frame suitable for you.

THE COLLECTIONS

SMYLE AND SMYLE SQUARE

With its contemporary design and ornate lines, the Geberit Smyle bathroom series creates a relaxing and positive bathroom ambience, and brings harmony and lightness into family and guest bathrooms. Available in a round and square design, Smyle achieves the highest level of convenience in the bathroom. A clear sense of order and efficient use of space makes Smyle the convenient choice for any bathroom design.

DESIGN

ACCESSIBILITY

SMYLE AND SMYLE SQUARE WASHBASINS

CAPTIVATING LIGHTWEIGHT APPEARANCE

Ornate lines, harmonious shapes and narrow rims characterise the washbasins of the Geberit Smyle Square complete bathroom series. They provide an exciting contrast to the generous shelf surfaces at the rear of the washbasins. The profile handles of the washbasin cabinets mirror the design of the washbasins and underline the harmonious appearance. The washbasins are available in many different sizes, as well as a handrinse basin with and without a tap hole. Geberit Smyle Square offers a wide range of solutions to meet all requirements in the modern bathroom.

Lightweight in appearance, the Geberit Smyle round series stands out in any modern bathroom. The washbasins are characterised by sophisticated lines and harmonious shapes, which appear as an exciting contrast to the generous shelf surfaces.

SMYLE SQUARE BATHROOM FURNITURE

MORE DESIGN FREEDOM IN THE BATHROOM

The washbasin cabinets, low cabinets, medium cabinets and wall shelf with towel hook can be mixed and matched to create a wide range of furniture combinations that optimally use the space in the bathroom and meet diverse furnishing wishes. As is standard at Geberit, high-quality materials, coated surfaces and modular elements are used and colour-adapted glass tops protect the shelf surfaces on the low cabinets.

Short projection toilet and furniture for smaller areas.

Handy wall mounted box shelf and magnetic storage.

SMYLE AND SMYLE SQUARE TOILETS AND BIDETS

Toilets and bidets continue the characteristically light design language and ensure a harmonious mix. The ceramic form of the toilets and bidets closely follows the design of the washbasins. The Geberit Smyle Square series offers a premium design solution for wall-hung and floor standing toilets and bidets, available in both round and square design. Geberit Rimfree® technology is integrated into the toilet pans. The slim toilet seats are available in two design versions, overlapping or sandwich.

VARIFORM MODERN WASHBASINS

THE LATEST DESIGN TRENDS MADE VERSATILE AND ERGONOMIC

The streamlined rims of Geberit VariForm washbasins are the perfect match for cutting edge bathroom designs. The countertop and lay-on washbasins are available both with and without a tap hole bench. The tap can be installed as a deck-mounted tap on the ceramic, or the base panel, or alternatively, as a wall-mounted tap on the prewall installation. All Geberit VariForm models feature a generous basin depth to ensure freedom of movement in ergonomic conditions. Made from high quality sanitary ceramic, the washbasins are scratchproof and resistant to cracks, as well as easy to care for.

GEBERIT VARIFORM WASHBASIN SHAPES

VARIFORM WASHBASIN CABINETS FOR LAY-ON WASHBASINS

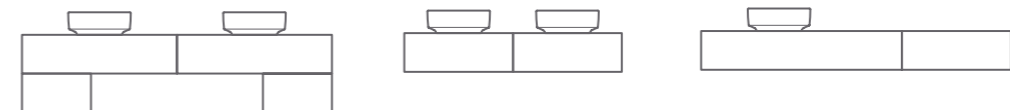

Washbasins can be added to the furniture in a number of combinations, giving you the flexibility to style your bathroom however you desire.

The interior can be used to its full potential thanks to drawers without a trap cut out.

FOR WASHBASIN AREAS WITH STYLE AND STORAGE SPACE

The calm, understated design of the Geberit VariForm washbasin cabinets gives the washbasin area a sense of lightness and perfectly complements their lean, modern design. The modular system permits flexible planning tailored to the space. The narrow washbasin cabinet is available in widths of 75 and 90cm, each with one drawer. The elements are additionally available as a set with a low cabinet of the same construction height, or in an L-shape with a larger low cabinet. If more storage space or two washbasins are required in the bathroom, different combinations can be connected with each other according to preference. The furniture comes in a wide range of design colours; white high-gloss coated, lava matt and hickory which blend in harmoniously with a wide range of styles.

SELNOVA WASHBASINS

HARMONIOUS BATHROOMS FOR ALL ROOM SIZES

The design language of the Geberit Selnova washbasins is characterised by a naturally soft geometry with gentle curves. This showcases the softly curving inner basin and a slim basin edge. The large tap hole bench can transform into extra storage space. Both corner and semi-recessed basins are also available in the range.

SELNOVA TOILETS AND BIDETS

SUITABLE TOILETS FOR EVERY CONSTRUCTION SITUATION

Geberit Selnova toilets also feature classically soft curves. In order to offer modern solutions for every bathroom, they are available as wall-hung and floor standing models. With Rimfree® technology the toilet ceramic pans are particularly easy to look after.

Matching bidets are also available as wall-hung and floor standing models.

GEBERIT AQUACLEAN SHOWER TOILETS

Water is an integral part of daily personal hygiene. It cleans, refreshes and brings a feeling of wellbeing. With the range of Geberit AquaClean models, from the simple to mount toilet enhancement, to the complete integrated toilet solution, you can also enjoy this comfort on the toilet. Decide for yourself how many additional pampering functions your shower toilet should offer. **Geberit AquaClean, enjoy the feeling of freshness and cleanliness every day.**

GEBERIT AQUACLEAN TUMA SURPRISINGLY VERSATILE

With the Geberit AquaClean Tuma you can choose the features you want in your shower toilet: from the simple, basic functions of the Classic model to the additional convenience functions of the Comfort version. The AquaClean Tuma is available as a complete toilet solution with a perfectly fitting Rimfree® ceramic pan and hidden connections for electricity and water, or as a toilet enhancement solution. This can also be combined with a variety of previously installed ceramic pans for your introduction into the world of shower toilets.

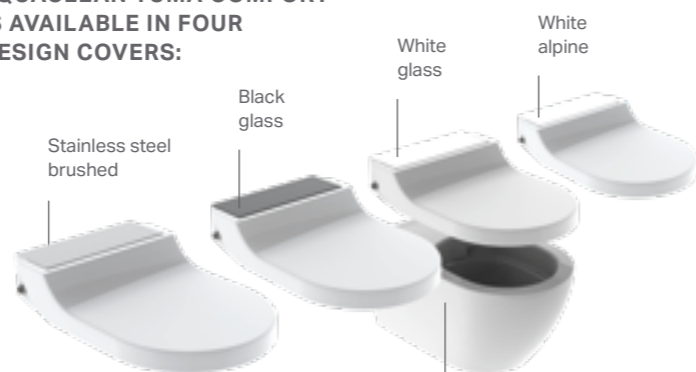

FEATURES OF AQUACLEAN TUMA COMFORT AND CLASSIC

-  WhirlSpray shower technology with five adjustable shower pressure settings
-  Rimfree® toilet ceramic pan
-  Individually adjustable spray arm position
-  Adjustable water spray temperature
-  Oscillating spray
-  Descaling function
-  Soft closing
-  Quick release function for the toilet lid
-  Energy-saving function
-  Geberit App

ADDITIONAL COMFORT FUNCTIONS OF AQUACLEAN TUMA COMFORT

-  Intuitive and clearly laid-out remote control
-  Gently cleaning lady wash
-  Toilet seat heating
-  Dryer
-  Odour extraction
-  User detection

MONOLITH A SHINING LIGHT IN THE BATHROOM

FUNCTIONS FOR GREATER COMFORT

The premium sanitary module Geberit Monolith Plus offers state-of-the-art flush technology for toilets. Flush actuation is triggered by gently pressing the sensor buttons. A discreet orientation light that you can configure in seven different colours according to your taste and mood also shows the way to the toilet at night. An integrated odour extraction unit absorbs odours directly in the toilets so that nothing can diminish the freshness of your bathroom.

GREATER DESIGN FLEXIBILITY

The front cover is available in a range of finishes and colours. Finishes include concrete, slate-look stoneware and safety glass. The safety glass finish is available in; white, black, lava and sand grey.

The side cladding is beautifully matched to the desired front finish with an anodised colourless aluminium cladding. This complements the white, sand grey and concrete look and cladding in black chrome to harmonise the lava, black and slate look finish variants.

GEO SHOWERING

The bathroom should be a reflection of both practicality and style. The Geberit Geo series provides a core range of framed shower enclosure products which deliver clear space saving solutions and outstanding value.

Excelling with its simple, stylish and practical design flexibility, Geo Showering offers quality and practicality in one enhanced solution.

PROFILE HANDLE DESIGN

Minimalistic profile handle design on all sliding partitions provides easy cleaning and increased stability.

PROCLEAN GLASS COATING

Proclean glass coating creates surface tension, making the glass easier to clean and also reducing the build up of water marks, limescale and soap scum.

SPRING LOADED BUFFERS

Provide an enhanced cushioning effect for improved acoustics when opening and closing the shower door, as well as smoother action when using the shower enclosure.

GEO PIVOT DOOR

The pivot door is ideal where space is available for an outward opening door, and can be used in a recess or with a side panel. It features a robust rise and fall pivoting system which adds rigidity and durability to the door opening.

GEO SLIDING DOOR

The sliding door enclosure provides a very generous showering space. It can be used in a recess or, with the addition of a side panel, it can be positioned in a corner.

GEO QUADRANT

The quadrant enclosure provides a distinctive and welcoming corner shape, and creates a good sized showering area without taking up too much room. Curved glass sliding doors are accessible from the front.

ROLLER SYSTEM

Enhanced traction across the upper and lower profiles of the shower enclosure, delivering improved acoustic benefits and a smoother door glide.

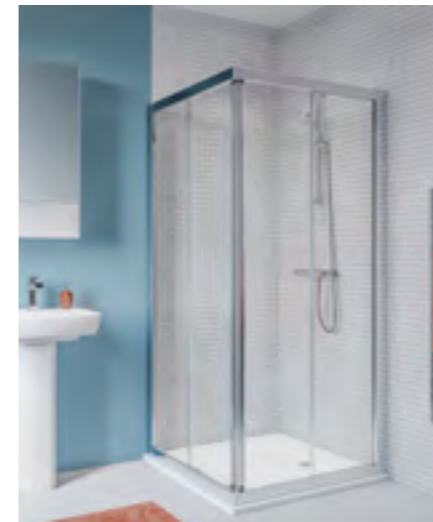

REVERSIBILITY

Doors and panels can be reversed for both left hand and right hand applications.

GLASS THICKNESS

6mm glass thickness as standard across all enclosures with 8mm upgrade available on sliding doors

GEO CORNER ENTRY

Sliding corner entry access doors provide extra showering space and make the corner entry enclosure an excellent alternative to a quadrant.

GEO BATH SCREEN

Designed for an over bath shower. The single panel bath screen hinges through 180° for easy access and cleaning. It can be fitted onto either a left or right hand wall.

OPTION MIRRORS AND MIRROR CABINETS

Illuminated mirrors and mirror cabinets are a real focal point in the bathroom. The Geberit Option series offers a comprehensive selection that provides the perfect soft light for your bathroom routine. **Creating washbasin centre pieces in any bathroom.**

OPTION MIRRORS AND MIRROR CABINETS

GLOWING EXAMPLES OF REFLECTIVE STYLE

Illuminated mirrors and mirror cabinets from Geberit bring soft ambient lighting to the heart of the bathroom, creating a warm, homely atmosphere. The illuminated mirrors are equipped with two vertical light strips, creating dazzle free illumination, with larger mirrors also featuring a horizontal light strip at the top.

The Geberit Option mirror cabinets also include two horizontal light strips with individual sensor control switches. In addition, subtle washbasin lighting is also integrated on the bottom edge and is activated by a light-touch sensor switch with orientation light.

The cabinets impress both visually with their all-round mirroring and functionally with doors featuring internal mirrors, and a soft closing mechanism.

The elegant glass shelves are height adjustable. An interior power outlet is provided for hairdryers, electric toothbrushes and shavers.

OPTION PLUS MIRRORS AND MIRROR CABINETS

Interior power outlet with USB connection: for recharging mobile devices.

Overhead LED cover for soft ambient lighting.

Generous space for cosmetic items.

Practical: includes a built in magnifying mirror and a magnetic holder.
